Subject: Microsoft Settlement

To whom it may concern:

My name is George Talbot, a software designer from Philadelphia. I work for Lucent, Inc. My opinions stated here is not intended to reflect the opinions of my employer.

I'm rather discouraged at the Microsoft settlement. The current settlement, as proposed does nothing about Microsoft using its combined dominance in operating systems and office products to restrict the spread of new and possibly competitive software technologies by coercing vendors into Microsoft-only solutions via restrictions and pricing of said operating system and office products.

Thank you for your time.
